MINERS MEET DEATH

One Hundred Men Entombed at Pittston, Pa.

NO HOPES OF BEING ALIVE.

The Work of Rescue Being Pushed as Rapidly as Possible, Although the Task Is a Hazardous One as Another Cave-in Is Likely to Occur at Any Time—Names of Some of the Victims.

WILKESBARRE, Pa., June 29.—While 100 miners were at work in the Red Ash vein of the Twin Shaft at Pittston, about 3 o'clock yesterday morning, the roof caved in and it is believed all the men perished. About 40 of the imprisoned men were English-speaking miners, the others foreigners. The names of the former are:

M. J. Langan, inside superintendent. J. H. Lynott, inside foreman. Alex McCormack, fire boss. Robert Haston, machinist. Thomas Murphy, drivers boss.

The following miners: Michael Costello, J. H. Kelly, Michael Gaudhan, John Hart, James Dailey, Michael Connell, Daniel Ward, Frank Kehoe, James Cleary, Edward Buckley, John Casey, Edward Rogers, James Kehoe, James McDonald, Edward Delaney, Cornelius McGuire, James Golden, M. O'Brien, Michael Hughes, Edward Kilday, James Burke, Patrick Ruane, Thomas Tenpeny, Michael R. Gaffney, Thomas Doherty, Anthony Kane, J. W. Murphy, Owen Lee, Anthony Gordon, James Wall. — Wall, his son; Dominick O'Malley, Peter Martin, Michael Ford, Timothy Durbriek, Thomas Dempsey, Thomas Carlin, Patrick Gibbons, John O'Boyle, Peter Joyce.

Aside from these there may be other English-speaking miners among the unfortunates. Thirty Poles and Hungarians were entombed, and it is thought that the total number of bodies in the mine will reach 100.

The men were at work propping up the roof when the fall occurred. The alarm was immediately given by the ringing of the fire bells and rescuers were put to work without delay. At 3 o'clock yesterday afternoon the first bodies were found in the slope some distance from the plane where the men had been working.

More than two-thirds of the victims were married men and leave families. Among them were Acting Mayor Langan, who was inside superintendent of the mine, and J. H. Lynott, a ward councilman.

About two weeks ago the surveyors reported to General Superintendent Law that the mine was squeezing and that unless steps were immediately taken to timber it, a cave-in or fall might be looked for. Superintendent Law lost no time, but at once put a number of timbermen at work to brace the falling roof. The "squeeze" continued, however, and Saturday the situation became alarming. In the afternoon a slight fall occurred and the men who were at work had to retreat before it. A consultation of mine officials was then held and it was then decided that heroic measures would have to be resorted to prevent heavy damage to the mine. Inside Superintendent Langan gave instructions that the most experienced miners should be sent and that the party would go down the mine at 7 o'clock. Expert timbermen put in an appearance at that hour and were soon lowered into the workings. They made their way to Red Ash Vein 1,500 feet down the slope.

The work of propping proceeded rapidly until 11 o'clock, when another fall occurred. It made a low, rumbling noise, and the flying coal and debris drove the men back. Then the "squeeze" ceased again and the men thought it was safe to resume work. They labored on until 3:30 o'clock when, so it is presumed, the roof fell in without warning, making a tremendous crash.

It is supposed, however, that the men were not all together, but some near the slope, and these probably ran up the incline when the fall occurred. This is the only way the finding of Mayor Langan's body in the slope can be accounted for. If the men received any warning they had time to run up the slope, but not to any great distance. The falling rock and coal filled up the slope and the adjoining gangway, completely cutting off all avenues of escape.

It was at first supposed that the men might have escaped being caught in the fall and that they were imprisoned behind the debris, but the finding of the two bodies would go to disprove this. It is still possible, however, that living men may still be behind the fall, although it is extremely improbable. Even if they escaped being crushed by the falling roof, the possibility of their being alive for any length of time in a gaseous mine is remote.

The alarm was first given by Water-carrier John Sheridan, who, with William Richard and Thomas Gill, were the only ones to escape of the whole party who entered the mine Saturday night. He was on his way up the slope to get some fresh water for the men, and,

when about 100 feet from the foot of the shaft, was knocked down by the concussion. He was badly cut and burned by flying coal and rock. He lay unconscious for 10 minutes and then came up the shaft.

The concussion was so great that it was heard for miles around. The foundations of nearly every building in Pittston were shaken, and windows and doors rattled as in a tornado. In the houses nearer to the mine, persons were thrown from their beds.

The first thought was that a great earthquake had occurred and the inhabitants rushed pell-mell from their houses. The ringing of the firebells and the shrieking of the big mine whistle told the story. Crowds of people gathered about the mouth of the shaft and numbered thousands by daybreak. Stalled men stood appalled and frantic women, who had husbands or sons in the doomed mine, wailed in despair. One mother cried out that she had two sons below. Another was the wife or widow of some unfortunate, and had nine helpless children at home. Many knelt on the ground, and in voices broken with sobs implored Divine Providence to restore their loved ones alive. When it was given out that there was little or no hope of rescuing the men alive, women and girls fainted, and were borne away, senseless.

The work of rescue was prompt and efficient. The best miners who remained on the surface joined voluntarily in the hazardous task—for hazardous it certainly was. There was the constant menace of another fall, or an explosion of firedamp. Special efforts were made to keep the air in good order so that if, by any chance, the men were alive, they should have fresh air to breathe.

The blocked slope and gangways held out little hope of the air reaching them. The rescuers were divided into three relays of 40 men each, under the direction of Mine Foreman Alex McMullin. The men worked as they had never before worked, clearing away the debris in the slope with the energy that only springs of the knowledge of dear lives behind it. They made good headway, considering the difficulties they had to contend with, and at 3 o'clock in the afternoon had cleared the slope a distance of 600 feet.

Activity brought encouragement, but when the first clearance was made it revealed a sight that dispelled all hope. Under the mass of rock lay the bodies of Langan and Lynott. A damper fell upon the work of the rescuers. They had been working for life and found death. Still the hope remained that others of the men might be penned in somewhere and that they would yet have the satisfaction of finding them alive.

At 3 o'clock in the afternoon it became necessary to swear in extra policemen to control the crowd around the mouth of the shaft. It had increased to fully 7,000. Ropes were stretched around the shaft and only mine officials were allowed to enter the enclosure.

Young Sheridan, the water boy, who had such a narrow escape, tells a thrilling tale of the disaster. He thinks there was an explosion of gas which blew down the newly erected timbers and caused the cave-in. When he left the mine to go out the slope and get water, those inside had no apprehension of a fall or a "squeeze." Everything was working nicely and the men expected to be out of the mine within another hour.

"The report of the fall," says the boy, "was like a hundred cannon and the force of it blew me fully 25 feet. I was hurled against the side of the slope. A piece of rock hit me back of the head, the wound commenced to bleed, and then I fainted."

Richards and Gill, who were on their way out after timber, concurred with Sheridan that the concussion was terrific. They were knocked off their feet and knocked against some brattice work. They can not conceive the possibility of anybody being in the wreck and escaping with his life.

Superintendent Law says: "Nobody regrets this awful occurrence more than I do. It is too early yet to give any reason as to the cause of the accident, but I can assure you that if I thought there was any danger in the work undertaken by the men, not a single one of them would have been allowed to enter the mine with my permission. I don't care for the damage to the mine. It is the great loss of life that gives me so much sorrow."

Superintendent Lathrop of the Lehigh Valley Coal company, who is an authority, says it will be 10 days before the bodies are reached.

A conference of prominent mine superintendents from all over the Wyoming valley was held last night and the situation in the mine was discussed. The conclusion was reached that to prevent further loss of life, the work of rescue must proceed with care. It is also the unanimous belief of the superintendents that the mine is now a tomb and that it will be some days before the rescuers reach the bodies.

The breaker of the Twin shaft burned down three years ago. There were over 100 men in the mine at the time, but all escaped through a second opening. The first great disaster in the anthracite region was in September, 1889, when 120 men perished in the Avondale mine, this county. The breaker over the mine caught fire and all the men in the mine were suffocated. This great catastrophe caused the legislature to pass a law compelling mines to have two openings. But when a cave-in occurs in a mine and the men are surrounded on every side by debris it makes little difference how many openings there may be. They can not escape, even if spared by the fall.

SHOT HIS SERGEANT.

Double Tragedy at Fort Niobrara in Nebraska.

THE SLAYER WAS SOON SLAIN.

Private Weaver Shot Down by One of His Own Comrades at an Officer's Command. A Number of Other Shots Fired, but No One Was Hit—The Shooting Due to Revenge.

VALENTINE, Neb., June 29.—Fort Niobrara was the scene of a murder and the almost instant execution of the murderer, under military orders, Saturday. Just before guard mount, Private Weaver of Company C, who was sitting on the company porch, waiting under arms to go on guard, suddenly drew his rifle and, after taking deliberate aim, shot and instantly killed First Sergeant Livingston of Company D, who was passing along the roadway in front of Company C's quarters.

When the sergeant dropped four men ran up and picked him up, when Weaver fired four shots at them, forcing them to drop the sergeant and run for shelter. Weaver then fired several more shots, aiming at any one who happened to come within range of his rifle, but without effect.

Then First Lieutenant Clark, Twelfth infantry, who was in D company's quarters, ordered Private Strine, D company, a member of the guard, to shoot Weaver, which he did, the ball striking Weaver's rifle near the butt, shattering it, and afterward entering his body, from which he died within an hour.

The only provocation known for the act is that a few days ago Weaver became engaged in an altercation with Private McLeary of D company in which he followed McLeary into D company's barracks, and was expelled therefrom by Sergeant Livingston. He swore vengeance on the sergeant at the time.

SENTENCED TO PRISON.

Another Chapter Closed in the Famous Panama Canal Scandals.

PARIS, June 29.—Eugene Arton, implicated with Dr. Herz and the late Baron Von Reinach in the frauds on the Panama Canal company, has been sentenced to six years hard labor. M. Arton disappeared from Paris very soon after the Panama scandal promised to be made the subject of a judicial inquiry and was extradited from England last year.

Arton was supposed to be the go-between those who paid and those who received bribes to influence legislation favorable to the company, and the knowledge he is supposed to possess involves the welfare of a large number of people in France. He managed to evade the police for a long period by his cleverness in disguising himself. He had long been popular at the salons of Paris as an amateur actor, and the knowledge and skill gained in that way was made use of to make himself unrecognizable. His sentence closes another chapter in the long story of the Panama scandals.

SIX PERSONS DROWNED.

But Three Saved Out of a Pleasure Party of Nine.

SHAWANO, Wis., June 29.—Word has reached here of the drowning of six persons at Shawano lake during a gale at 6:50 yesterday evening. A party consisting of O. A. Risum and wife, Herman Drackrey and wife, Louis Gokey, wife and child of Paleiver; Miss Emma Garbrecht of Shawano and Miss Margaret Crowe of St. Nazianz, Manitowish county started from Cecil about 5 o'clock in O. A. Risum's yacht, en route for a few days' outing on the north shore of the lake, when about three miles from shore the boat was capsized by a sudden squall and the party precipitated into the water.

Mr. Risum and Mr. Drackrey clung to the capsized yacht for several hours, the latter holding the child in his arms when they were rescued by parties from Cecil, who were attracted by their cries for help. The bodies of the other six have not been recovered.

SICKNESS AND SUICIDE.

An Octogenarian Strangles Himself with His Feet Touching Floor.

MUNCIE, Ind., June 29.—Christopher Sheeler, aged 82 years, was found hanging by the neck dead at noon Saturday, in McClellan's barn, on West Jackson street, near the home of his sons, Charles and Albert, with whom he resided.

The old man had climbed into the haymow, attached a bed cord to the top of a ladder 12 feet high, fastened a small chain to it with a loop made by slipping the chain through a ring attached to it. This he dropped over his head. His feet were just touching the floor. Sickness is supposed to have wrecked his mind. He came from Canal Dover, O., where he was mayor for 18 years. His body will be buried there.

CHILD ATTACKED BY A ROOSTER. It Was Injured So Badly That It Can Scarcely Recover.

CHATTANOOGA, June 29.—Saturday the 3-year-old son of S. P. Surgher, at Kyle's Ford, slipped away from its mother and went into the barnyard. The little fellow was attacked by a large game rooster, and, in trying to get away, stumbled and fell.

The bird pecked the child's face and thrust its spur into the little one's throat, severing an artery. The screams of the child at length attracted the

mother's attention, and when she arrived on the scene the rooster was still sticking the child with his spurs, and the little fellow was then bleeding and unconscious. Physicians were summoned, but the boy had nearly bled to death. His recovery is doubtful.

WILLING TO QUIT.

Mexican Minister at Washington Sends in His Resignation.

CITY OF MEXICO, June 29.—A letter is published from Hon. Matias Romero, Mexican minister at Washington, resigning his post on account of an article published in an official journal during the pendency of the Guatemalan question, and which Minister Romero felt to be severe in its judgment of his views regarding the proper settlement of that question.

Minister Romero reviews his patriotic labors in behalf of the country, often at great personal cost and inconveniences, and adds: "I have continued in my post believing that my long residences in the United States my knowledge of its public men and above all the kind welcome I have fortunately been given by all classes in that country would enable me to lend effective services to Mexico, but if the incident referred to, or any other, has caused me to lose the confidence of my government, I shall not remain a single day longer in that post and shall regard it as an especial favor that I be relieved of so burdensome an employment in which it is necessary above all to have the confidence and the decided support of my government."

Minister of Foreign Relations Mariscal, in replying to Minister Romero, assures him of the entire confidence of the government and says that the article in the official journal was made necessary by an editorial in an opposition paper which had availed itself in making a rude attack on the government of the ministers' arguments and that a rectification in the official journal did not involve any reproach, but was only an explicit contradiction of statements made by the opposition papers.

In conclusion Minister Mariscal urges Minister Romero to put aside the fears which his delicacy have inspired and continue serving the republic with his accustomed abnegation and zeal.

The Associated Press interviewed Minister Romero last night to see if he had reconsidered his resignation in view of the flattering terms of the letter of foreign relations minister, but he said he could say nothing.

NEW GOVERNOR FOR CRETE.

Georgi Berovitch, Prince of Samos, Has Been Appointed to That Position.

CONSTANTINOPLE, June 29.—Georgi Berovitch, prince of Samos, has been appointed governor of Crete in succession to the Mussulman governor, Pasha. The island of Samos is autonomous, although it pays a tribute to the Turkish government and Prince Georgi Berovitch is a Christian.

The recall of the former Christian governor of Crete, Caratheodory Pasha, and the appointment in his stead of the Mussulman Abdullah Pasha, whose was implicated in the Armenian troubles, fanned into a flame the smoldering discontent of the Cretan Christians, and resulted in the disorders which have prevailed for several months on the island. The appointment of the Prince of Samos seems designed to conciliate Greece, which has manifested overt sympathy with the discontent of the Cretans under Turkish rule.

HELD AS A PRISONER.

Dr. Joaquin Castillo Captured on the Three Friends at Tampa, Fla.

TAMPA, Fla., June 29.—Among the prisoners captured on the Three Friends Friday night by the Winona was Dr. Joaquin Castillo of the Cuban Junta. When the Three Friends left Jacksonville last she took a large contingent of the Bermuda expedition that had failed to land.

There were many conflicting stories, some to the effect that they were unable to land on account of the proximity of the Spanish warships and other versions were the leaders were not overzealous to land. Dr. Castillo accompanied the last party from Jacksonville with the determination that he should see them land or know the reason why.

ELECTION IN MEXICO.

No Doubt About the Re-Election of President Diaz.

CITY OF MEXICO, June 29.—The preliminary federal election occurred yesterday all over the republic, and 16,000 electors were chosen in various electoral districts. The electors will meet in various districts next Sunday and vote for the president, magistrates and members of the congress.

There is no doubt of the triumphant election of General Diaz, whose candidacy has been welcomed in all parts of the republic.

The polling booths were opened all over the City of Mexico and the election officers were busy. The lower classes abstained from voting.

Death of Young Priest.

LOWELL, Mass., June 29.—Rev. Michael Waine of Cincinnati, a young priest of the Catholic church, died at St. John's hospital yesterday. He was ordained June 17 at Cincinnati, and while on the train to this city to visit friends contracted a cold from which pneumonia developed.

Result of a Gasoline Explosion.

NEW YORK, June 29.—A gasoline explosion at Plainfield, N. J., yesterday, caused the death of Miss Alice Moreau, aged 15. Mrs. Gertrude Peterson was probably fatally burned by the same explosion.

KENTUCKY CYCLONE.

West Louisville Narrowly Escapes Total Destruction.

ONE YOUNG LADY KILLED.

Quiet a Number of Other People Were Hurt—Two Churches and Number of Residences Completely Demolished and Many Buildings Damaged—Railroad Trestle Washed Away—Crops Injured.

OWENSBORO, Ky., June 27.—At about 2:30 o'clock Saturday afternoon West Louisville, a village 13 miles west of this city, was visited by a cyclone, damaging the property considerably, killing one person, Miss Pearl Hicks, aged 16 years, daughter of Charles Hicks, and badly injuring Mr. C. L. Clark. The house of C. L. Clark was completely wrecked.

Miss Hicks was a visitor at the house when the cyclone came up. Two daughters of Mr. Clark and a little boy were also in the house, but escaped unhurt. St. Alphonsus' Catholic church at St. Joseph was destroyed. The residence of A. T. Williams was damaged and outbuildings destroyed. Ned Thomas' house was greatly damaged. Dr. J. N. Alvey's stable was blown away.

Dr. Osborne's residence was damaged. Two horses of J. F. Harrell were killed and his residence destroyed. G. W. Morgan's residence, two miles from West Louisville, was destroyed. Other damage, the particulars of which have not yet been secured, was done.

This is the second time the cyclone has visited that section. The first occurred March 27, 1890, when the whole town was blown away.

Railroad Track Washed Away.

FLEMINGSBORO, Ky., June 29.—A cloudburst two miles southeast of this city, Saturday washed out a double deck trestle on the line of the C. F. and A. railroad, and the morning train from Hillsboro had a narrow escape from plunging into the abyss 40 feet below, but it was discovered just in time to stop in safety. Connection with Hillsboro by rail will be cut off for a day or two. Great damage was done by washing out the land fences, crops, etc.

ARGENTINA'S DEBT.

British Bondholders Trying to Reach Some Kind of an Agreement.

NEW YORK, June 29.—A special to The Herald from Buenos Ayres says: Strenuous efforts are being made to bring about a consolidation of the conflicting interests among rival representatives of British bondholders relative to the provisions of the bill for the modification of Argentina's debt. These efforts are meeting with success to the advantage of all classes of holders of Argentine securities.

There is a general feeling against the small sum allotted to the province of Entre Rios, whose debt is \$17,000,000 and allotment of bonds only \$6,000,000. Much interest has been shown in the cable dispatch received by United States Minister Buchanan, announcing the coming of 15 members of the American Manufacturers' association. Leading newspapers express the belief that the visit will have a good result in enabling representative business men to realize the resources of this country.

GETTING REVENGE.

Chicago Fire Insurance Agents Advance Rates.

CHICAGO, June 29.—Fire insurance agents yesterday took revenge on every property owner in Chicago in retaliation for the passage by the city council of an ordinance taxing all agents whose companies are not Illinois corporations 2 per cent of their gross premiums, this money to go to the maintenance of the fire department.

The agents met in special session at an emergency meeting of the Chicago Underwriters' association, and decided to raise the insurance rates in the city 5 per cent.

Their openly expressed purpose is to hold this increase over the heads of the people as a club to force the repeal of the obnoxious ordinance.

Church Row Again Breaks Out.

BAY CITY, Mich., June 29.—The row in the Polish Catholic church, which resulted in a large faction of the membership keeping the pastor, Father Mattkowski, away from the church premises for months past, yesterday developed an exciting row. While a funeral was being conducted two of the Poles quarreled and exchanged blows. The adherents of the combatants took sides and while the excitement was at its height, some one in the crowd fired a revolver. The result was that two men were wounded, neither of them seriously. After this incident peace was again restored for the time being.

Called To His Door and Shot.

VINCENNES, Ind., June 29.—William Milligan, a wealthy farmer living near Sumner, Ill., was called out of his home at an early hour in the morning by an unknown assassin, who fired three shots at close range into Milligan's breast, killing him almost instantly. It is reported that the murdered man had knowledge of the theft of some clover seed, and that the murderer feared Milligan would testify against him.

Killed His Wife and Himself.

NEW LONDON, June 29.—James Romkey, aged 41, shot and killed his wife and then committed suicide yesterday. Unfaithfulness on the part of the wife was given as the cause.

The leading Republican journal of the Ohio Valley didn't seem to know just who Mr. Hobart was when he was nominated by the G. O. P. for Vice President. The morning after the nomination the Commercial Tribune referred to the gentleman as "Farmer Hobart." Instead of being a farmer, Mr. Hobart has been a lawyer ever since he quit school.

FREE PIKES.

Scott County is Also Arranging to Buy Up All the Roads.

The Georgetown Times says the Scott County Magistrates met on Thursday to consider the free turnpike question. A motion was made to accept the seventy-three miles of pike that has been offered free and to accept all others that should hereafter be offered on the same terms. The following substitute was carried: ordered that committee appointed to get propositions from the turnpike corporations be continued until July 21, 1896, and that the County Judge appoint an agent to vote the stock of the county in each road that holds a meeting for the purpose of determining upon what terms they will sell or surrender their roads to the county, and that the County Judge take such steps as are necessary under the charter of the various companies, to call a meeting of the stockholders of said companies for the purpose of determining upon what terms each company will sell or surrender its stock. The County Judge will see that said meeting is held in time to report at meeting of the court to be held on July 21st, and the court will probably determine upon said date what action it will take in regard to all roads offered free and which ones offered for sale.

 What do we care about forrin trade?
 What's the matter with our home market?
 But we can't have free silver.
 The forrin countries don't want it.
 Say, see here Hanna,

And Then the "Indians" Will Be Here Next Week For Four Games.

In Sunday's issue, the Knoxville Tribune says: "After a week's rest the local cranks will see the game as it should be played upon their return engagement here of the Maysville team which will play a series on Wednesday, Thursday, Friday and Saturday of this week. Maysville has been greatly strengthened since last here. Lautenbach, who has been here with several teams and is a crack short stop, has been added to the team. Elberfeld, late third baseman with the Dallas league team, has also been signed. Another new man is Rogers, a circus outfielder. Newton, the south-paw wonder, will pitch the first game.

"Knoxville will play an engagement at Maysville on July 8, 9, 10 and 11. Manager Moffett has secured hotel and railroad rates for all rooters who desire to accompany his Indians and he would be pleased to hear at once from all who intend accompanying the locals. Twenty-five have already stated they were going with the team."

Manager Cox has signed Elberfeld and Cornelius and they will be with the team this week at Knoxville.

The Ironons didn't make a hit off of Leever at Portsmouth Friday, and he struck out fifteen of them. It was a great game, and Portsmouth sports lined their pockets with Ironon money.

Portsmouth Blade: "Lever and Keller were given a royal time during their stay in the city. The cream of Portsmouth's population called on them last evening. They were fairly worshiped."

Portsmouth Times: "The Portsmouth boys are loud in their praises of the manner in which they were treated by the Maysvilles. The members of the club and the citizens were united in trying to make their stay pleasant and agreeable."

Missionary Work in Africa.

Henry M. Stanley, the great explorer, says of the progress of the gospel in the region of Lake Victoria, Nyanza, Africa: "When I was at the lake eighteen years ago there was not a missionary there. Now there are forty thousand Christian natives and two hundred churches. The natives are enthusiastic converts. They would spend their last penny to acquire a Bible. They are not like the blacks of the west coast; in fact, there are no real Ethiopians among them. They vary in color from light yellow to dark copper, and are much more intelligent than the blacks."

The Modern Beauty

Thrives on good food and sunshine, with plenty of exercise in the open air. Her form glows with health and her face blooms with its beauty. If her system needs the cleansing action of a laxative remedy, she uses the gentle and pleasant Syrup of Figs. Made by the California Fig Syrup Company.

EVERY member of Washington Camp No. 3, P. O. S. A., is urged to be present at the meeting Wednesday night, July 1, without fail.

If You're Rich Enough

To buy a Ferris wheel for a bicycle you won't be very much interested in what we're going to tell you, but if you aren't that well-to-do—if you have to watch the pennies and dimes so that you'll have some dollars to look after, LEND US YOUR EAR.

WASH GOODS—Never was a time when these dainty fabrics were so cheap as now. Lawns, cambrics, dimities, jaconets, percales and hosts of other weaves at about 100m prices. You would be surprised to see the handsome dimities we are selling for 5 and 10c. the yard, the same goods that sold earlier in the season for 10 and 15c.

LAUNDERED SHIRT WAISTS—Could take up our entire advertising space telling you about them and then not do justice to the stock. A ten minutes inspection will impress you more than columns of description. You can have your choice of all our 50 and 75c. waists for 35c. and our \$1.00 and \$1.25 one's for 60c.—worth coming to see aren't they?

OUR CORSET CUSTOMERS—Stand by us: are you one of them? We sell none but the well-tested makes. We study your corset needs. If you buy a corset here and it does not suit you in every way, bring it back; this corset stock of ours is run for the benefit of our patrons. If we please them it's bound to be remunerative to us. We have more than a dozen different makes and styles from which to select.

YOU'LL NEED A FAN—Before a great while. Our summer equipment takes in about everything that is worthy in fan architecture: there's a young hurricane folded in each one of them, and the prices are very low. You should see our dainty little empire fans, they are town talk and are going in a gallop at 5, 10, 15 and 25c. each.

SUCH PARASOL SELLING—As we're doing has seldom been seen in this "neck of woods." Had to buy big lots to get the maker's "clean-up" prices, but quantity doesn't frighten us when everything else is right. Imagine us selling an English gloria silk parasol, size twenty-six inch, steel rod, paragon frame and Congo handle for \$1.10. Cheap isn't it?

FOR MEN'S WEAR—Men appreciate a bargain once in a while. We picked from our men's furnishing stock, several lots of men's summer wearables, and we're going to give you a bargain benefit for the next few days. You know a good thing when you see it; come in and inspect these. Our 75c. unlaundered shirt for 50c., our 25c. tau or black sock for 15c., our 35 and 40c. underwear for 25c. and our 10 and 10c. suspenders for 25c.

CINCINNATI TOBACCO MARKET.

There Has Been No Improvement. The Growing Crop Promises to be a Fine One.

The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

The tobacco market has shown no improvement in the past week, and has proved rather discouraging to those who have been holding, believing that the June market would be some better than the previous months. While prices of tobacco are not as high as many would wish them to be, still they are higher in proportion than a great many other products of the earth that are being marketed at the present time.

There appears to be quite a demand for any class of tobacco that has color, from the lowest grade to the very best, and there being so few hogheads of the best tobacco offered prices have proved very satisfactory, because the buyers show a desire to get a few good hogheads even at higher prices. All kinds of tobacco, from nondescript to medium leaf, of a red character with a green cast, are selling low, and we see nothing to encourage holding of this class of tobacco, as it will be discarded by manufacturers as soon as possible.

The red tips that are sound are doing very well on account of the French buyers taking these goods at fair prices.

The reports from the country are very favorable for the growing crop, and there is every prospect for one of the best grown for a number of years, and we don't believe that the setting has been in excess of previous years, still we think we will have what is most desired by our manufacturers—a good crop of tobacco. We are in hopes that the political strife throughout the country will be settled in such a manner as will be most beneficial to the nucleus of the prosperity of our country, and that is the farming interests.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
